

Dear Patients,

It is with mixed emotions that I write to inform you of my decision to retire from East Granby Family Practice on July 1, 2026. The decision was one that was not easy to make. Fortunately, it was not made because of an illness, but for other personal reasons.

Working at East Granby Family Practice has been a tremendous honor, and caring for you has been the privilege of a lifetime. Giving these up is not something I take lightly, and I will miss you, your family, my wonderful colleagues, and the fantastic staff at EGFP enormously. Sharing the joys of your lives and helping usher you through the tough times has been the most fulfilling part of my career at EGFP. For many of you I almost feel like part of your family, and if I can, I hope to see you or at least talk to you sometime before my retirement.

While transitions are hard, I have been blessed with working alongside top notch physicians and nurse practitioners at EGFP. I have the utmost confidence that any physician who joins the practice after I am gone will continue the long tradition of excellent care here.

In the short term, East Granby Family Practice is unable to absorb my entire patient panel. If you travel a long distance or would not feel comfortable with another EGFP provider, please begin the process of transferring your records and establishing care with a provider outside of EGFP to ensure a smooth and timely transition. If you have me (Dr. Freedman) listed as your PCP with your insurance, you will need to update that with them to your new provider.

EGFP wants to remind you that your medical records are confidential and protected under federal and state laws. If you would like a copy of your medical records, please contact the office and we will provide you with the necessary forms.

Sincerely Yours,

Elizabeth S. Freedman, MD
